

## **JUICI BEEF LIMITED'S FOOD SAFETY POLICY**

Juici Beef Limited is committed to providing the best quality products by adhering to world class food safety and security standards, regulatory requirements and best practises.

In recognition of our obligation to food safety and security, we have committed to:

- Investing in world class manufacturing technology;
- Providing advanced verification, implementation and audit software;
- Employing competent and well trained staff;
- Protecting the environment;
- Adhering to customer and regulatory requirements;
- Continuously assessing, reviewing and improving our systems and procedures;
- Providing continuous training and development; and
- Measuring and monitoring our food safety objectives.

Our production analytics modelling platform measures and reviews our production output and ensures compliance with the safety requirements and this information is used to update our operation procedures. We emphasise the importance of maintaining open lines of internal and external communication. Our commitment to excellent food safety and security standards guarantees food safety and the highest quality products.
